

5 O'CLOCK EDITION.

THE California Legislature has adjourned sine die. The press of that State has repeatedly called attention to the rottenness in this State, and have never let an opportunity slip of besmirching Nevada. We advise them to look at home for "rottenness," and not bother any more about the Silver State. The Bulletin says:

A greater number of rascals than were elected to this Legislature never assembled under the dome of the Capitol. They passed laws in defiance of the Constitution, and spat upon the decisions of the Supreme Court with the bravado of the hoodlum. The contingent funds of both Houses were robbed most unscrupulously from the very start. The large number of investigations enabled Boss Buckley's attaches to summon witnesses from everywhere and collect fees and mileage that were never earned. Bill after bill of this kind passed the Senate and Assembly without question. A very pointed case was that of General Sam Backus. A subpoena was issued for him to appear before the Senate Committee on Prisons, but it was never served. Although General Backus has resided in San Francisco for the past year and a half, he was put down for mileage from Santa Barbara and return. He does not know that this steal has been perpetrated in his name, but the mileage and witness fees have been drawn by somebody, because the warrant for the whole amount, prepared by the Clerk of the committee, was cashed at the Treasury on Friday.

The Record-Union contains the following:

The Legislature was an extravagant one, and in that respect its record is such that it has not probably a parallel in the history of the State. It will afford partisans ample material for criticism in not distant campaigns. But why should there be fault-finding with the Legislature, after all? Did it not come direct from the people? Was it not, under our scheme of government, representative? Shall not the people hold themselves accountable for the results of their deliberate choice? Was the experience of the past hidden from them? Must they not in short, be deemed directly responsible for the outcome, since they must be presumed to have known the full measure of the ability, moral, courage and political stamina of the men they commissioned to make and unmake laws in their name?

We think after all that Nevada will compare very favorably with other States in the Union. If the press from other quarters would cast the mote from their own eyes before jumping onto poor little Nevada they would be nearer in line with good government.

THERE is a whole temperance sermon in the downfall of Mrs. Elizabeth Hawley, who, as Miss Hawley was at one time a teacher in the Clement Grammar School in San Francisco; also teacher in the Trinity Church Sunday School. An appetite she was powerless to quell was fostered by an intemperate husband, who solicited her to drink, that his own vice would not appear so glaring, and paved the road to ruin, which leads down to insanity and moral death. At this instance of her aged mother, she has been taken in charge by the Insane Commissioners and was sent to Stockton last Friday.

Mrs. McKee, the President's young married daughter, is, according to the Albany Journal, the Mrs. Cleveland of the new administration. She has, it is said, the happy faculty of making every person she meets for the first time believe that she has a particular interest in his or her welfare and acquaintance.

GOVERNOR WATERMAN's experience with Boss Buckley's Legislature of the past Winter has fully satisfied all political aspirations. He tells his friends that his "ambition is satiated" and that "a million dollars a year" would not induce him to undergo a similar experience.

HEREAFTER in Kansas a grand jury can only be drawn on petition of 100 taxpayers, and not then if the Judge of the district shall declare a month before the beginning of court that there is no necessity for it.

FIFTEEN Congressmen are said to be suffering from pneumonia, contracted by standing in the rain on the day of Harrison's inauguration.

Scientific Boxing.
New York, March 19.—Tom White of San Francisco was matched against Frank McCabe of this city for a twelve-round go on Sunday with small gloves at the Westside Athletic Club. It was a vigorous but unusually scientific contest all the way through, and was won by the Californian on points.

Boomers Fired Upon.

TOPEKA, March 19.—The United States Attorney for Kansas has just received a telegram from Oklahoma, stating that the boomers at that point have been fired upon by the regular troops. Further violence is hourly expected. The United States Attorney has wired a deputy marshal near the scene to proceed at once to prevent violence, by arresting any one violating the law. The boomers claim that the troops fired without orders, and ask that they be arrested for assault.

A Dental Manager.

CHICAGO, March 19.—A Philadelphia special says the English company which has been supporting Mary Anderson has been sent out of that city to New York. There were over fifty in the party, and they left with very angry feelings towards Marcus Mayer, Assistant Manager. The cause for this lay in the following interview, which Mayer had with a reporter on Saturday night. Mayer was asked:

"What will become of the company?"

"What's that got to do with it?" he asked. "You might as well ask me what becomes of the bill-stickers. The company is nothing. You make me mad by asking such a question. Supposing the company should appear at the opera house on Monday night, who would go to see them? Nobody. You newspaper people consider these cattle and ignore the star half the time; that's no proper way. I'm a newspaper man myself. As a matter of fact, Abbey will ship the company back to New York to-morrow, and will then ship those who want to go home back to England. A good many, I suppose, will try to catch on in this country until next season, when Miss Anderson may engage them."

The members of the company will present their grievances to the dramatic journals of New York and London and seek to boycott Mayer.

What Their Strike Cost.

BOSTON, March 19.—The annual report of the Chicago, Burlington and Quincy Railroad for 1888, shows, in comparison with 1887, as follows: Gross earnings, decrease of \$3,787,000; expenses, increase of \$2,784,000; net earnings, decrease of \$6,571,000; dividends, decrease of \$2,291,000; and the debt increase, \$5,400,000.

The directors say that after many prosperous years the Chicago, Burlington & Quincy has experienced a year of reverses. After paying the fixed charges, including \$700,000 contributed to the sinking funds, and dividing five per cent. upon the capital stock, the accounts show a deficiency for the year of \$4,331,000, which it has been necessary to take from the accumulated surplus of the company. The report attributes this to the engineers' strike and to the operations of the inter-State law.

A Better Market.

LONDON, March 19, 2 p. m.—Copper is better; sellers at 40, buyers at 39.

NEW YORK, March 19.—There is no interest in copper here. Only a few nominal bids were received here during the call.

LONDON, March 19.—5.30 p. m.—The stock exchange closed firm—copper 40 points, buyers.

PARIS, March 19, 1 p. m.—The Bourse is dull. Societe Des Metaux shares, 47 francs 50 centimes; Rio Tinto, 271 francs 25 centimes; Comptoir Des Compte, 150 francs.

PARIS, 2 p. m.—Comptoir Des Compte, 160 francs; Societe Des Metaux, 50 francs; Rio Tinto, 274 francs.

PARIS, 3 p. m.—Comptoir Des Compte, 167 francs 50 centimes; Societe Des Metaux, 45 francs; Rio Tinto, 275 francs.

A Vigorous Bankrupt.

NEW YORK, March 19.—A Boston dispatch to the Herald says the Union Pacific affairs are in a curious shape again. There is activity in the construction department, which is strangely out of place in a company which has been pronounced bankrupt and asking Congress for an extension of its debt. Surveying parties are out, and a number of new lines are projected. The most important is a direct outlet to the Pacific Coast at or near San Francisco. Every man charged with the management of the company for years back has recognized the necessity of such a road, and has tried to secure it.

Federal Nominations.

WASHINGTON, March 19.—Harrison has sent the following nominations to the Senate: John R. McPhe of New Mexico, Associate Justice of the Supreme Court of New Mexico; Frank R. Atkinson of Dakota, Associate Justice of the Supreme Court of Dakota. Whitlaw Reid of New York, Minister to France; Julius Goldsmith of Wisconsin, Consul General at Vienna. The nomination of Eugene Schuler of New York to be Assistant Secretary of State was withdrawn, he having declined the appointment.

Naval Affairs.

WASHINGTON, March 19.—The only bid for the machinery of the cruiser Maine, that of N. F. Palmer, Jr., & Co. of New York, has been referred to the Bureau of Steam Engineering for examination. The report and recommendation of the Chief of Bureau of Ordnance, Equipment and Recruiting, Construction and Repairs, and Steam Engineering have been directed to proceed without delay to prepare plans for the construction of the new vessels authorized by the Naval Appropriation bill of the last session of Congress, namely: One armored steel cruising monitor of not less than 3,000 tons, at a cost not exceeding one million and a half, on the plans designed by John R. Thomas; two steel cruisers of the most approved type, of from 800 to 1,200 tons displacement, to cost in the aggregate, exclusive of the armament, not more than \$700,000, and one ram for harbor defense, of the general type, approved by the Naval Advisory Board on Nov. 7, 1881, of the highest practicable speed. Each Bureau is to prepare the plans pertaining to it, and the chiefs are to meet as often as is necessary for the purpose of considering and settling upon the general characteristics of the vessels.

Contract Completed—Railroad Matters.

WASHINGTON, March 19.—The contractors for the gunboat Yorktown having reported her completed, Secretary Tracy has ordered the Board, of which Commodore Fitzhugh is President, to reassemble at Cramp's shipyard to-morrow for the purpose of making such further examination as may be necessary.

At a meeting of the Senate Committee on Interstate Commerce to-day arrangements were made for pursuing the organization of Canadian transportation matters ordered by a resolution of the Senate August 3, 1888. It was determined to meet in New York on May 15th. It is probable that before the summer is over the committee will go over the entire length of the Canadian Pacific road.

Drowned Prisoners.

RICHMOND, Va., March 19.—Private James K. Bolton, an inmate of the Confederate Soldier's Home, now at the point of death, tells a startling story. He says when employed as a diver in getting the copper off of the wreck of the Confederate ram, Merrimac, in 1873, he dived into the forecastle and there found the skeletons of two men manacled to the floor. He supposes they were members of the crew, incarcerated for violating some rule of the navy, and who, when the craft sunk, were forgotten.

Appointments Confirmed.

WASHINGTON, March 19.—In executive session this afternoon, the Senate confirmed the nominations of Elbert D. Weed, District Attorney for Montana; Smith A. Whitefield of Ohio, Second Assistant Postmaster-General; Abraham Hason of Pennsylvania, Third Assistant Postmaster-General; Samuel R. Thayer, Minister to the Netherlands, and William W. Thomas, Jr., of Maine, Minister to Norway and Sweden.

Latest from Apia.

WASHINGTON, March 19.—The Secretary of the Navy has received the following from Commander Kempf, Acting Commander at the Mare Island Navy Yard: "Captain Schomaker reports, by a letter dated February 25, the arrival of the Vandalia at Apia on the 22d. Matters there are quiet. All on board well. The Trenton has not arrived."

Land Reclamation Committee.

WASHINGTON, March 19.—Senator Stewart's special committee to investigate the subject of irrigating and reclaiming arid lands will enter upon their duties on August 1st, meeting at St. Paul and proceeding first to Montana. The Chairman expects the trip will occupy six weeks and cover the most of the Territories.

A Misunderstanding.

LONDON, March 19.—In the Commons to-day Sir James Ferguson, Parliamentary Secretary for the Foreign Office, announced that certain serious questions between England and Morocco had not been settled. A portion of the British Channel squadron has consequently gone to Tangier.

Consul Dismissed.

WASHINGTON, March 19.—The Haytian Legation has received official advice that the Consul of San Domingo at New York, Leoncio Julia, has been dismissed for aiding the Haytian rebels, in violation of the neutrality laws of the United States, by purchasing war steamers in this country for them.

Government Challenged.

LONDON, March 19.—In the Commons Sir William Vernon Harcourt challenged the conduct of the Government in placing Irish officials paid by the public at the service of the Times in connection with that paper's charges against the Irish members of the House.

A Dynamite Explosion.

CUMBERLAND, Md., March 19.—An explosion of dynamite occurred at the Cumberland Hydraulic Cement Company at noon, fatally injuring Joseph Hammersmith and Joseph Weyman, and seriously wounding two others.

Temperature Report.

CHICAGO, March 19.—The temperature this morning at New York was 44°; Chicago, 36°; St. Paul, 30°; Winnipeg, 32°; and New Orleans, 54°.

Stopped by Rain.

LONDON, March 19.—A game of baseball was commenced at Sheffield, but the rain caused a postponement. All-American 10, Chicago 0.

A Test Race.

LONDON, March 19.—The Derbyshire handicap steeplechase, three miles on grass, was won by Mingle.

British and American Consulates Wrecked.

WASHINGTON, March 18.—The Secretary of State has received from Frank Kennedy, United States Consul General at Shanghai, a report on the recent riot at Chin Kiang, China. It appears that on February 5th the Consul General received from Consul Jones at Chin Kiang telegraphic news of a riot and threatened attack on the Consulate and a request for protection. As there was no American man-of-war immediately available, the British Consul General was communicated with and an English man-of-war was started from Shanghai, February 6, for Chin Kiang. On that day the British Consulate and four other houses at Chin Kiang were burned and the office of the American Consul gutted and looted by a mob of about 600. Jones and his family escaped injury. These facts were communicated to every Minister at Peking. The Consul-General at Shanghai also reports that there was a late rumor that more buildings had been destroyed, among them the residences of some American missionaries.

A Bomb Factory Discovered.

ZURICH, March 19.—The police have discovered an establishment for the manufacture of bombs on an extensive scale. Two more Russians have been arrested for connection therewith.

A Public Work.

COLOGNE, March 19.—The Gazette states that the Prussian Government has granted a subsidy of 6,000,000 marks to aid in the construction of a canal connecting the Elbe and Trave Rivers.

No Conclusion Reached.

WASHINGTON, March 19.—The Senate, after a long debate on a proposed amendment to the rules, without reaching any conclusion, and after a brief executive session, adjourned.

Strongly Backed.

WASHINGTON, March 19.—It is said that August Donath of Pennsylvania has the backing of Senators Cameron, Quay and Gorman for public printer, and will probably get it.

Make no mistake.
 By dispelling the symptoms so often mistaken for Consumption, Santa Allen has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA CAT-RE-CURE is equally effective in eradicating all traces of Catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker. \$1.00 a package or 3 for \$3.00.

Answer this Question.
 Why do so many people who seem to prefer to suffer and be made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cents we will sell them Osburn's System Vitalizer, guaranteed to cure them? Sold by Osburn & Shoemaker.

Rich food and lack of exercise, during the winter months, causes the system to become torpid and the blood impure. A dose or two of St. Patrick's Pills will cleanse and invigorate the system, purify the blood and do more good than a dollar bottle of blood purifier. Sold by Osburn & Shoemaker.

This is the season of the year when the cold, cold winds create and sweep with the hands and complexion. Soft, white hands and a clear "peachy" complexion can be easily preserved by the frequent application of Osburn's Skin Cream. It rubbed into the skin will leave no greasy trace. The skin shines like a shell by Osburn & Shoemaker.

REVIEWS.

Local and General Intelligence.

Attention is called to a lot of stock and other things for sale under "New To-day."

L. Brooks shipped three cars of beef cattle to Hayes, Carrick & Co. last evening.

The steamer Walla Walla has been seized at Port Townsend, W. T., for making false entries.

William Bedell killed Green She don at Star, Idaho, last Sunday. Both were ranch and stockmen.

E. C. Sessions is moving his stock of furniture into Judge King's brick building south of the Postoffice.

The Gilroy (Cal.) Gazette says that Daniel Murphy is preparing 1,200 acres of his home ranch for planting olive trees.

Read the 50-cent ad. of Young & Co.'s combination fence, which is shipped in bundles to any place desired.

In the Tascara mining case of the Found Treasury vs. the North Commonwealth, Judge Rising last Monday rendered his decision in favor of the plaintiff.

Janaschek will appear here on the 25th inst. in "Meg Merrilies," a dramatization of Sir Walter Scott's "Guy Mannering." It will be a rare treat. Secure seats early.

Abraham Bros. have sold their little Hamilton stallion, "Prospect," to Hans Johnson for \$1,200. "Prospect" is one of the finest bred horses that ever came to Nevada.

PERSONAL.

General R. M. Clarke was in town to-day.

Mrs. S. O. Wells went below last evening.

Bob Logan came down from Carson last evening.

Joseph Marzen of Lovelock returned this morning from California.

Senator Evan Williams of Ormsby county went below last evening.

Senator C. A. LaGrave and wife of Winnemucca were in town last night.

N. Levy, the Winnemucca merchant, passed east on this morning's express.

Superintendent Whitte and wife returned from below on this morning's overland.

Bert Crawford, a Carson typo, passed through here last evening on his way to Seattle, W. T.

Senator A. E. Millett came down from Carson last evening and left this morning for his Nye county home.

James Jones of the San Francisco cattle-buying firm of Schoenfeldt & Jones arrived from the Bay on this morning's express.

James Miller, who came in from Long Valley last evening, has bought ninety head of the Creager cattle, which will arrive here this evening.

George Manns and family of Oregon, who for several weeks have been stopping in Wadsworth, are now visiting Mr. Manns' sister, Mrs. H. L. W. Knox.

Al. White and wife of the Palace Hotel returned this morning from San Francisco, where they went to buy the furniture for the new part of their house.

Will Bridge the Mississippi.
 The charter of a company organized for the purpose of building a bridge across the Mississippi at or near Southport, in Jefferson Parish, La., has been published. For some weeks engineers have been at work running lines through the plantations and lands on both sides of the river. The general impression is that C. P. Huntington, the millionaire President of the Southern Pacific railway system, is the moving spirit of the bridge company, and that he will build the bridge in order to more closely connect his Chesapeake & Ohio and Southern Pacific systems, and to have an unbroken railway line from the Atlantic to the Pacific Ocean.

Incendiarism Captured.
 A Winnemucca dispatch of the 17th inst. says: News was brought here to-day by Captain Smith that 800 tons of hay were burned by incendiaries on the Diamond ranch, Grant county, Or., owned by Peter French. Subsequently a man was caught in the act of firing a haystack. He was beaten until insensible, and may die. Bad feeling exists between some of the prominent owners of land in the locality, of the incendiarism is supposed to be the outcome.

Cattle Drowned.
 Fifteen head of cattle pasturing on the bottom lands on the Berg place, two miles north of Marysville, Cal., were drowned last Thursday by the rise in the Feather river. Several thousand cords of wood left in exposed places have been washed away, while a number of dead sheep have been seen with the debris passing Marysville.

Justice Court.
 Fred Gladding was arrested last night on the complaint of his wife, who says that he choked and otherwise abused her. Gladding is in jail, where he will be allowed to remain until he gets sober.

Harry Davis was fined \$120 or sixty days in jail for stealing money and jewelry at the County Hospital.

Indiana Dying.
 Johnson Sides, the Pute peace-man, informs the GAZETTE that he has lost a second boy with pneumonia. He also says there is much fatal sickness among the Indians at the Pyramid and Duck Valley reservations, also about Austin.

A Welcome Rain.
 Passengers who came in from the north last evening report that Long Valley received the most thorough soaking yesterday it has had for three years. It rained and snowed alternately during the entire day.

Guilty of Murder.

A SCORCHING REPLY.

Senator Stewart Makes a Deputy United States Marshal Face and Answer.

The following letters speak for themselves:

EUREKA, February 18, 1889.
 Hon. William M. Stewart, Washington, D. C.—Dear Sir: To-day I sent you a dispatch worded as follows, viz:

"If fair show intended, have Stock-alager's witnesses subpoenaed, concerning wood. Answer."

You possibly may have thought it presumptuous on my part to do so, but the whole truth of the matter is simply this: I have been mixed up in these cases officially, and I have had it thrown at me all along the line, and it looked to me as if the investigation called for by your resolution had taken the semblance of a "whitewashing" one. I do not mean to infer that this has been done through your knowledge or instrumentality, but in justice to all parties concerned, I think it no more than right that both sides should be heard in this matter. It is a question of vital importance to Eastern Nevada, and in order that the Committee on Mines and Mining should have a fair understanding of matters, I think that a fair and equal showing to all parties should be given.

I am well aware that witnesses for the defendants are already in Washington, having been notified by some means when to be there. Why have not the Government witnesses been treated in the same manner? My reputation and the reputation of my superior officer, U. S. Marshal Moore, are of such importance to us as that of the Richmond Company Limited of London, or any other corporation on God's green earth.

It is common talk here that these cases have been brought on by officials anxious to make fees, etc. I have lived on this coast for forty odd years and I have never yet and in fact that I was ashamed of; and the insinuations that have been sent throughout this State and elsewhere that officials have been instrumental in bringing these suits for fees, etc., are very distasteful to me, and I think in justice to my brother officials, as well as myself, that we should at least have some chance to defend ourselves before your Committee. Respectfully, &c.,

G. W. GREEN.

UNITED STATES SENATE,
 WASHINGTON, D. C. Feb. 28, 1889.

G. W. Green, Esq., Eureka, Nevada—Dear Sir: Yours of the 18th inst. is received. Why you as an official should take any interest in the timber suits other than the serving of papers and the seizure of wood and other acts required of you as Deputy Marshal is unexplained. Your great anxiety to come to Washington at the expense of the Government is also unexplained and quite incomprehensible to me. The fact that you served the papers is admitted and your testimony is not needed to corroborate the evidence on that point. It has not been denied that you are a partisan in the case and that you expect to make money out of it, and I see no necessity for evidence to contradict it until somebody denies it. I was not aware that it was the duty of a Deputy Marshal, in addition to the execution of process, to swear the case through, and did not feel called upon to summons you as a witness for the purpose of imposing upon you extraordinary services. The fact that the people of Nevada for the past thirty years have been cutting the scrubby timber of the mining regions for mining and domestic purposes is not denied, and I see no propriety in expending Government money to bring thirty or forty men to Washington for the purpose of proving that which is already admitted in the case. I should be very glad if all my constituents could have their expenses paid to witness the inauguration, but I hardly feel at liberty to put the Government to that expense without having a better excuse than is furnished in your letter or in the letter of Mr. Rives, wherein he suggests you as one of his witnesses. You are quite mistaken in supposing that there is a different treatment of the other side, as you call it (that is, the side of the people of Nevada), from your side, which is the side of the officials, who expect to make fees out of the Government. All the persons who have come to Washington in connection with the timber suits have come on their own money, except Special Agent Temple, who was subpoenaed at the suggestion of the Commissioner of the General Land Office, and arrived here last evening.

The Sergeant-at-Arms attempted to subpoena Thomas Robinson, another of the witnesses named by Mr. Rives, or rather by the Commissioner of the General Land Office at the suggestion of Mr. Rives. The Sergeant-at-Arms also attempted to subpoena Henry Donnelly, the superintendent of the Eureka Company, at my suggestion. I desired that the Eureka Company should have one person here to state the facts in regard to the business of that company. If all the subpoenas had been served there would have been two witnesses on the side of the office-holders and one on the side of the people; but Mr. Donnelly and Mr. Robinson were not found and consequently the only witness who came here by order of the Committee was Mr. Temple, the Special Agent, who made the report upon which some of these suits were brought. I say some of these suits, because it appears that there were eleven suits brought and only three were authorized by the Attorney-General. Why all these suits were brought, and why they were brought by the fact that it increased the expense to the Government and created additional annoyance to the people.

You say that you "have been mixed up in these cases officially," and that you "have had it thrown at you all along the line." I do not understand exactly what you mean by "officially" and what was thrown at you. You say that the investigation has "taken the semblance of a whitewashing one." You do not say who is to be whitewashed or who needs whitewashing. If you mean the persons who got up these prosecutions, you are very much mistaken. There is no intention on my part to whitewash them, but there may be an effort made in other quarters of that character.

The people living in the mining regions of Eastern Nevada are authorized by law to cut wood for mining and domestic purposes, and I can hardly conceive that they need any "whitewashing." They are, so far as I am informed, true American citizens, and while enough for all practical purposes.

I am sorry that you were disappointed in not having an opportunity to come to the inaugural at the expense of the Government, but it cannot be helped. If you have not received fees enough for serving the papers in these cases to bear the expense of coming to Washington to witness the inauguration, get up a contribution in Eureka for that purpose. There are undoubtedly some people in that town who will be glad to show their gratitude for the service you are rendering the miners. Yours respectfully,

WM. M. STEWART.

THE SORREL HORSE.

No Reason Why They Should Be Tabooed.

The Western Stockman says: Among farmers in general there is a strong prejudice against the sorrel horse. This prejudice has almost tabooed the sorrel from the stud, and the accidental owner of a sorrel colt is a common subject of ridicule among his brother breeders.

Whenever anything becomes general and exists for a long time it is only fair to assume that there is some good reason for its existence. This matter of prejudice against the sorrel horse is certainly an exception to the rule, for there is certainly nothing either in the color or quality of the sorrel horse which should condemn him.

It can justly be said of the gray horse that his color gradually fades out, so that at from seven to ten years he becomes almost white, and exhibits to every one the unmistakable evidence of age, however bright and young he may look otherwise. Then, too, a team of grays mating perfectly this season may be very unlike next season. Or take a black horse; not more than one out of ten of this color but will sunburn and turn brown with the heat and sweat of Summer. The brown becomes less brown from the same cause, but in spite of all these faults any of the above are preferred colors.

There is no color in the horse which is so insensible to heat as the sorrel. There is seldom any coat so silky or responds so quickly to good grooming as the sorrel. But more important still, there is seldom any horse with such sound feet and limbs or possessing the endurance of the sorrel; and, likewise, the sorrel team are the best mated and show the best of any teams in our cities, and cost the most money, too.

Now in view of the above facts, why is the sorrel not a favorite among farmers? We think the only reason is that when the horse buyer comes along he wants you to knock off ten dollars on the price because your horse is a sorrel. Now it is the ten dollars the dealer is after, not a black, brown or gray horse, and because there is likely to be no other fault with a sorrel his color must be objected to.

If there is any reason why the sorrel should not be cultivated, the Stockman would like to know it.

Found for Defendants.
 In the suits of the United States against the Sierra King Mining Company, for cutting timber on the public lands for mining purposes, at Phoenix, A. T., the jury last Friday found for the defendants. This is an important victory for the mining interests in Arizona.

Large Reservoir.
 Last Thursday the great Sweetwater dam near San Diego, Cal., contained 6,000,000,000 gallons of water. It stood sixty-two feet deep at the gauge-mark.

Disarming an Unseen Foe.
 "This was sometimes a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against unseen foe, malaria, it is no longer a paradox, but an easy possibility. Wherever malaria evolves its miasmatic venoms to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very strongest of resistance, is the auxiliary protection to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is its preventive force that should chiefly recommend the Bitters to persons dwelling in malarial-cursed localities, for it is a certain bulwark of defense against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and bilious ailments.

A Sound Legal Opinion.

E. Blairbridge, Maudsley Esq., County Atty., Clay Co., Texas, says: "Have used Electric Bitters with most happy results. My brother, was also very low with Malaria Fever and Jaundice, but was cured by the timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. L. Wilcoxson of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died had it not been for Electric Bitters."
